

List of Collection Codes and Access Rights

Table 1 and Table2 list the latest Collection Codes and Access Rights. Collection Codes and Access Rights can be specified in harvesting API (OAI-PMH) only. Rights cannot be specified in search API (SRU, SRW, OpenSearch and Z39.50).

Table 1 lists Collection Codes for NDL Digital Collections (Digitized Contents) and NDL Digital Collections (Online publications).

For Collection Codes, forward match shall be applied. For example, if "D00" (Books) is specified, bibliographic data with the Collection Code "D00" (Books), "D001" (National Diet Library), "D0011" (National Diet Library Research and LegislativeReference Bureau) will be returned. You can also specify only the code "D" ("D" is an identifier for NDL Digital Collections [Digitized Contents]) or "I" ("I" is an identifier for NDL Digital Collections [Online publications]). Please note you cannot specify multiple Collection Codes at one time.

Collection Code "D02" (Rare Books and Old Materials) is exceptional. If "D02" is specified, bibliographic data with the Collection Code for any of "D20" (Nisiki-e) or "D21" (E-zu) or "D22" (Important Cultural Properties) or "D23" (Old Western books) or "D24" (Others) will be returned. As another exceptional code, a request specified for "D071A" will return data of "D071A" only because a relationship between "D071A" and "D071AA-AO" is not nested.

Collection Name for each data of National Diet Library Digital Collections can be seen on the website (<http://dl.ndl.go.jp/>). Please check the field of "Collection Information (type:collection)" on the Detailed Record View for Metadata.
